Allowable Subject Matter

3. Claims 1-116 are allowed.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 52, the prior art of record to Hawkins and Abecassis either alone or combination fails to teach or suggest a system and its corresponding method for delivering customized linear video programming to each of a plurality of individual viewers, **wherein the linear video program is constructed from a set of programming segments, received from at least two different simultaneous programming streams to have a content unrelated to each other, and when assembled, creating a linear programming; and segments of each stream in alternative forms, i.e., different segment having different content maybe substituted into the video flow in accordance of the viewing, demographic, or other preferences of the viewer. Segments of each stream are chosen for assembly in such a manner to provide apparently linear programming without regard to a characteristic length of any one segment.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
